

# Chinese Bible School

MONTHLY REPORT—March 2017

We would like to tell our friends about a new exciting internet missionary work—building a free, in-depth, online Chinese Bible School, to get the truth to literally millions of Chinese-speaking people all over the world in ways we could have never before imagined. It will have 45 courses covering all the books of the Bible and more. This comprehensive Bible school will operate free online 24 hours a day, 7 days a week. This school will exist for and on behalf of the Lord’s church throughout the world.

You may ask why we believe a Chinese Bible School would be a successful way to reach the lost. It is because we are building a school exactly like the successful English Online Bible School located at [school.wvbs.org](http://school.wvbs.org). This Bible School began in February of 2014 and now has over 10,000 active students. There is also a steady enrollment of over 140 new students each and every week. Could you imagine 140 new people lined up at your church building every Monday, wanting to study the Bible with you? In addition, these students come from 46 different religious groups, and it is estimated that 75% are not yet members of the Lord’s church. This is perhaps the greatest evangelism project we have seen.

Maybe you are asking why it is we think that a Chinese Bible School would be as beneficial as the English school. First, it is estimated that there are 527 million people in the world who speak English and there are 1.39 billion who speak Chinese. There are over two and one-half times more people who speak Chinese than English. Second, I have recorded 5 different programs in Chinese, one of which is titled *Where Do We Go When We Die?* ([video.wvbs.org/languages/chinese/](http://video.wvbs.org/languages/chinese/)) This program, in Chinese, is viewed well over 600 times per day outside of mainland China.

To help you understand more the process of building the school, here is a list of the tasks needed for each course –

1. Translate the English course notes into Chinese.
2. Prepare verses and on-screen graphics.
3. Prepare syllabi, student course notes and tests.
4. Video recording lessons.
5. Video editing work.
6. Upload video (add titles, thumbnails and descriptions).

Please remember us in your prayers and spread the word about this vital work. Thank you very much.
